- 10-2014 IHE consolidates HPD+ and ModSpec changes to HPD
- 10-2015 ONC calls for action in Interoperability Roadmap
- 04-2016 ONC holds first PD Workshop
- 04-2016 Argonaut prioritizes PD IG for FHIR

## Questions that remain...

---

What is a provider directory?

Which individual and organizations are included?

What is it used for?

Who can access it and for what purpose?

What information does it contain?

How is it managed?

Is there just one for the country? For each state?

How is the information kept up to date?

How is it accessed? Are there standards?
