

CommonWell Health Alliance

Arien Malec, Vice President Data Platform & Application Tools

7/28/15

We are an independent, not-for-profit trade association open to all HIT suppliers and others devoted to the simple notion:

- + That **health data should be available** to individuals and providers **regardless of where care occurs** and;
- + That provider **access to this data must be built-in to HIT at a reasonable cost** for use by a broad range of health care providers and the people they serve

Current Interoperability Approaches Simply Don't Scale

- **28** distinct point-to-point interfaces
- Organizations are forced to create contract-by-contract interoperability between local IT systems
- Regional “networks” achieve only regional results

We are Building a National Infrastructure *With the Person at the center*

CommonWell Services

- + Consent Management
- + Identity Management
- + Record Locator
- + Document Query
- + Document Retrieval
